Wildlife & Habitat Data Analysis Branch  
Natural Diversity Database**

**LICENSE AGREEMENT**

You are subject to the following terms and conditions with regard to the purchase and/or use of data from the California Natural Diversity Database (CNDDDB):

1.
  - a. The CNDDDB is a proprietary database owned by the California Department of Fish & Game.
  - b. You may make copies of CNDDDB data or database applications in digital or hardcopy form for use or distribution within your department, agency, business or corporation. This copy privilege does not extend to professional organizations, associations or affiliations. In these cases, we will negotiate a special rate for organization members.
  - c. Subcontractors may have access to these data during the course of any given project, but they must not be given a copy for their use on subsequent, unrelated work.
  - d. You may not resell the CNDDDB data or database application in any form.
2. The CNDDDB is dynamic. We add, modify and update records on a daily basis. Therefore you should plan to update your CNDDDB data at least once every six months. It is your responsibility to use a current copy of the CNDDDB.
3. The CNDDDB data require a certain degree of biological expertise for proper analysis, interpretation and application. Our staff is available to you by phone to advise you in the technical aspects of our data. We can also arrange CNDDDB training and orientation for you. It is your responsibility to insure that the data you obtain from us is used correctly.
4. We work every hard to keep the CNDDDB as current and up-to-date as possible given our capabilities and resources. However, we cannot and do not portray the CNDDDB as an exhaustive and comprehensive inventory of all rare species and natural communities statewide. Field verification for the presence or absence of sensitive species will always be an important obligation of our customers. Likewise, your contribution of data to the CNDDDB is equally important to the maintenance of the CNDDDB.
5. As a professional courtesy, we ask that you acknowledge the CNDDDB as the source of your information whenever you use CNDDDB data in your reports, papers, publications or in maps that incorporate CNDDDB graphic elements.
